PROFESSIONAL SUMMARY

As a Senior Project Manager and Digital Transformation Consultant originally from **Egypt**, I bring **over 15 years** of strategic, hands-on experience orchestrating large-scale government and enterprise digital programs. Across leading entities like **ECZA, HRDF, and REGA**, to foundational roles such as at the Saudi Embassy in Cairo, I have driven comprehensive digital enablement and PMO maturity. I specialize in mastering the entire delivery lifecycle—from initial scope architecture and drafting rigorous RFPs/SoWs to directing complex API/ESB integrations and securing final UAT sign-offs. Renowned for rigorous multi-vendor governance, I consistently align high-impact technology initiatives with broader organizational visions, frequently collaborating alongside premier global partners such as **McKinsey, Bain, PwC, and KPMG** to fuel sustainable transformation.

WORK EXPERIENCE

Senior Project Manager & Digital Transformation Consultant

Calx — HRDF / REGA / ECZA · Riyadh, KSA

Mar 2023 – Present

- Assessed digital workflows across government entities; aligned delivery with Vision 2030 objectives and industry best practices.
- Led end-to-end PMO governance: scope & cost control, change management, RFP & SoW drafting, technical evaluations, and UAT sign-off.
- Oversaw full API/ESB integrations, data validation, and deliverable acceptance across multi-department programs.
- Advised senior leadership on cybersecurity risk, digital resilience strategies, and regulatory compliance.
- Developed organizational digital policies; led cross-functional teams across business, QA, data, security, and ops.

Senior Project Manager

NexsysOne (Telecom) · Dubai, UAE

Mar 2021 – Mar 2023

- Directed scope & cost management of digital projects; led Scrum ceremonies ensuring milestone delivery.
- Managed concurrent e-commerce and mobile platforms with multi-vendor oversight, within scope and budget.
- Built KPI dashboards for IT operations: incident, service, capacity, availability & network optimization.
- Owned live incident & problem management; standardized SLA frameworks and vendor performance reporting.
- Created and optimized BPMN integration processes to streamline multi-system operations.

Project Manager

TechnoSmart (Tadawul) · Medina, KSA

Jan 2013 – Mar 2021

- Spearheaded enterprise IT strategies and roadmaps; managed resources, budgets, dependencies, and executive stakeholder engagement.
- Streamlined IT operations and authored internal governance policies, procedures, and operational manuals.
- Coordinated with vendor partners and third-party integrators to deliver system enhancements on time and within budget.
- Introduced structured change management and risk tracking frameworks, reducing project overruns by over 25%.

Project Manager

Saudi Embassy · Cairo, Egypt

Jan 2011 – Jan 2013

- Directed IT operations, strategic planning, and training; aligned project plans with staffing and operational requirements.
- Oversaw infrastructure upgrades and technical support for embassy departments; ensured 99%+ system uptime.
- Liaised with Egyptian government IT bodies and international vendors; standardized procurement and service delivery processes.

Project Manager

Egypt Telecom · Cairo, Egypt

Jan 2008 – Jan 2011

- Managed 40+ Greenfield and 31+ Rooftop sites; ranked **#1 among 25 contractors** with ~30% market share through strategic planning and quality delivery.
- Led site acquisition, civil works coordination, and rollout scheduling across multiple governorates simultaneously.
- Built and managed a cross-functional field team of engineers and subcontractors; enforced HSE compliance and quality standards.
- Optimized project delivery timelines by 15% through the implementation of agile scheduling techniques and localized resource allocation.
- Negotiated service level agreements (SLAs) with regional vendors, resulting in a 10% reduction in material and operational costs.
